If you're running or planning to start an NGO in India, obtaining **12A registration** and an **80G certificate** is crucial for ensuring tax exemptions and attracting donations. At **NGO Experts**, we specialize in hassle-free registration services that help NGOs become fully compliant and eligible for government benefits.

12A registration is a must-have for NGOs, trusts, and societies to claim income tax exemption under Section 12A of the Income Tax Act. Once your organization gets this registration, your income will not be taxable, allowing you to utilize more funds towards your charitable activities. Similarly, the **80G certificate** allows your donors to claim tax deductions on their contributions, making your NGO more attractive to potential supporters.
